

<https://www.5minutefun.com/5-quick-and-easy-paper-crafts/>

You'll need: paper, scissors, tape

1. Ask your child to cut these shapes from the paper: circle (the head), rectangle (the body) and a forked tongue.

2. Now they fold backwards and forwards along the length of the rectangle (like a fan) and open it out.

3. Now your child assembles the snake by sticking the head to one end, and sticking on the tongue.

Finally, they draw eyes onto white paper and stick them on. Or add googly eyes.

More ideas!!

Strips of coloured paper and spots or use a toilet roll and make it curl!!

Have fun 😊
